

COMPHIBGRU THREE INSTRUCTION 9078.1A

Subj: ANNUAL INVENTORY OF RESTRAINING MATERIAL (LASHING GEAR)  
AND FLOATATION DEVICES

Ref: (a) AFLOAT SUPPLY PROCEDURES NAVSUP-485

Encl: (1) Inventory Report Format

1. Purpose. To promulgate standard procedures for inventory and maintaining accountability of restraining material (lashing gear) and floatation devices.

2. Cancellation. COMPHIBGRUTHREEINST 9078.1.

3. Discussion.

a. This instruction establishes the requirements for all Commander, Amphibious Group THREE ships to conduct an annual inventory of all restraining material and floatation devices.

b. Allowances for equipage will be in accordance with each ship's Allowance Equipage List (AEL).

4. Action.

a. Commanding Officers will ensure that all restraining material and floatation devices are inventoried and controlled. All unserviceable items should be surveyed in accordance with paragraph 5128 of reference (a) and replacement items placed on order.

b. Each ship will conduct an annual inventory to determine serviceable equipment on hand as of 15 August. Ships will submit a message report in format of enclosure (1) to their ISIC to be consolidated and forwarded to COMPHIBGRU THREE (Code N45) not later than 01 September. As significant changes (10% of allowance or more) in the quantity of equipment on hand occur due to receipts, losses, or normal wear, each ship will submit an update to the last annual inventory reflecting changes.

COMPHIBGRUTHREEINST 9078.1A

c. Reports which indicate shortages will be accompanied by a plan of action for correction.

W. E. JEZIERSKI  
Chief of Staff
